Victor J. Janasik (3HW14) CERCLA Removal Enforcement Section U.S. Environmental Protection Agency 841 Chestnut Building (6th. Floor) Philadelphia, Pennsylvania 19107

Dear Mr. Janasik:

In response to your November 1, 1985 Section 104 (e) letter to Standard Chlorine of Delaware and the telephone conversation between you and myself. The following information is submitted.

- Standard Chlorine of Delaware stores the following hazardous substances in bulk quantities at its facility in Delaware City, Delaware.
 - (a) Benzene
 - (b) Chlorine
 - (c) Chlorobenzene
 - P-Dichlorobenzene (1,4 dichlorobenzene 0-Dichlorobenzene (1,2 dichlorobenzene 1,2 /4 Trichlorobenzene (d)
 - (e)
 - (f) 1,2,4 Trichlorobenzene
 - 1,2,3 Trichlorobenzene (g)
 - Tech Trichlorobenzene (h)
 - (i) Tetrachlorobenzene
 - (j) Hydrochloric Acid

In adddition, small quantities of a variety of hazardous substances incidental to the facility's manufacturing operations are also stored temporarily for use at the facility. A list of these substances is being prepared and will be forthcoming.

- The above-listed materials have been stored at the facility until processed or shipped to customers from 1966 until the present. There has been a continuous manufacture and sale of products during this time frame.
- With the exception of some finished p-dichlorobenzene and tetrachlorobenzene, all the above-listed materials are stored in liquid form in mild steel tanks or DOT-approved drums. Some finished p-dichlorobenzene and tetrachlorobenzene is stored in bags.
- Attached is a list documents received by Laura Boornazian regarding the hydrogeologic and concept Engineering Evaluation of Groundwater Contamination. Also attached is Standard Chlorine of Delaware's

STANDARD CHLORINE OF DELAWARE, INC.

1981 notification filing under Section 103 (c) of CERCLA.

- 5. The same list mentioned in item #4 includes reports prepared by Roy F. Weston.
- 6. All RCRA wastes are properly manifested and transported to an EPA approved chemical secure landfill. These relative records are available for inspection at Standard Chlorine of Delaware, and identify the transporter used. No other person has generated or stored hazardous substance at this facility.
- 7. Standard Chlorine of Delaware is a wholly owned subsidiary of the Standard Chlorine Chemical Company of Kearny, New Jersey.

If you have any questions please feel free to call me.

Sincerely,

STANDARD CHLORINE OF DELAWARE, INC.

T. E. Pierson Plant Manager
